

# New Hampton Curriculum

## Social Studies Program Standards

### New Hampton Community School District

- 1. Culture:** The students will examine the impact of culture and culture diversity.
- 2. Time, Continuity, and Change:** The students will develop a historical perspective and will learn the ways human beings view themselves in and over time.
- 3. People, Places and the Environment :** The students will develop an understanding of the organization of human populations, the physical earth, its resources and how they interrelate to make informed decisions.
- 4. Individual Development and Identity :** The students will utilize knowledge of individual development and identity in gaining insight into individual behavior.
- 5. Individuals, Groups, and Institutions :** The students will understand how institutions are formed, maintained, or changed and how they influence individuals, cultures, and societies.
- 6. Power, Authority, and Governance :** The students will understand the historic development of structures of power, authority, and governance and their evolving functions in contemporary society.
- 7. Production, Distribution, and Consumption:** The students will learn about production, distribution, exchange, and consumption so that they can make informed economic decisions.
- 8. Science, Technology, and Society:** The students will understand the relationship between science, technology, and society when addressing human issues, problems, and opportunities.
- 9. Global Connections:** The students will be able to construct connections between their lives and the realities of global interdependence.

**10. Civic Ideals and Practices:** The students will apply the ideals, principles and practices of citizenship in a democratic republic through the development of civic attitudes and values.

**11. Habits of the Mind:** The student will develop and apply the skills of critical thinking, creative thinking, and self-regulation to enhance social studies learning.
